President’s message….

The JGSCV Board allocated $300 from your dues toward purchasing new books for the library. They are currently in the traveling library so you may use them at forthcoming meetings. The new books are:
--A Dictionary of Ashkenazic Given Names Their Origins, Structure, Pronunciation and Migrations — Alexander Beider,
--A Dictionary of Jewish Surnames from Galicia — Alexander Beider
--A Dictionary of Jewish Surnames from the Kingdom of Poland — Alexander Beider,
--Avotaynu Guide to Jewish Genealogy, — Sallyann Amdur Sack and Gary Mokotoff.
(See page 5 for holdings at our permanent library located at the Agoura Hills Library)

We spend your membership dues advisedly for the betterment of the Society. Dues are allocated towards copying of meeting handouts, publicity and, if required, speaker expenses to get to our meetings. JGSCV also made contributions in 2006 to:
--JewishGen which posts our monthly meeting notices on their discussion groups and provides support for many JGSCV members who use its fantastic resources,
--Hebrew Immigrant Aid Society (HIAS), in support of their Archive Project for genealogical work, and
--Temple Adat Elohim in appreciation for hosting our meetings
If you haven't renewed your JGSCV membership yet, or made the decision to join, this is the time to do so. See page 2 to get information on membership.

Our May meeting will focus on individual member stories of genealogical successes or failures. If you wish to participate please contact me (president@JGSCV.org). Jan Meisels Allen

SPEAKER RANDY THOMPSON OF NARA

Randy Thompson of the National Archives and Records Administration (NARA) addressed JGSCV at our February meeting. Randy is an archivist located at the NARA regional office in Laguna Niguel, CA.

While NARA regional offices are mostly known for their availability of both US Census data as well as Naturalization records, the focus of this presentation was on lesser known resources including court records (e.g. bankruptcy case files, criminal and civil case files), Federal land records, and records of aliens from enemy countries during WWI and WWII. Also discussed were two specialized databases available for search on the NARA website (www.nara.org): Archival Research Catalog (ARC) and Access to Archival Databases (AAD) offering researchers access to a number of specialized files which have genealogical relevance.

Don’t forget to make your plans to attend the 27th IAJGS International Conference on Jewish Genealogy July 15-20, 2007 in Salt Lake City. It will be a genealogical trip of a lifetime! Go to www.slc2007.org for more information.

SEE PAGE 4 FOR SCHEDULE OF FORTHCOMING MEETINGS
ABOUT JGSCV……..  
The Jewish Genealogical Society of the Conejo Valley and Ventura County meets once a month, usually on a Sunday. Meetings are oriented to the needs of the novice as well as the more experienced genealogist. Members share materials, research methods and ideas, as well as research success or failures. Members have access to the JGSCV library located on a special shelf at the Agoura Hills Public Library. Members also receive our monthly newsletter which is circulated by email.  
2007 dues are $25.00 for a single membership and $30.00 for a household unit. To join, please send appropriate amount in check made out to JGSCV and addressed to Helene Rosen at 28912 Fountainwood St., Agoura Hills, CA 91301. Obtain new membership or renewal forms on our website at www.jgscv.org by selecting the membership button.

SEEKING VOLUNTEERS…….  
We are seeking volunteers to staff a committee devoted to outreaching to the community in order to further the objective of Yad Vashem (The Holocaust Martyrs' and Heroes' Remembrance Authority in Jerusalem) in completing Pages of Testimony (POT) on behalf of known victims of the Holocaust. JGSCV wishes to make community synagogues and other organizations aware of this effort to incorporate such names in the Shoah Victim’s Database. If interested in joining such a committee please call President Jan Meisels Allen at 818-889-6616.

SPECIALIZED DATA BASE…..  
Yad Vashem has uploaded a large set of scanned documents that were found in former USSR archives. The database is searchable and contains about 5 Million names of people from all the areas that were liberated by the Red Army. The database has a basic and advanced search engines and the documents are in PDF format. This information is an addition to the Shoah Victim’s Database gathered from the Pages of Testimony. To get to the data base go to: www.yadvashem.org/lwp/workplace/listoflist/?WT.mc_id=lolen

TRACING EMIGRATION FROM UK PORTS  
It is now possible to trace ancestors emigrating from British ports to anywhere else in the world by searching online passenger lists. You may access the site at www.findmypast.com. Information was released by Britain's National Archives and the site is licensed by the Archives. By 2008, years 1890-1960 will be on-line; as of now the years of 1890-1909 are available. To access the site requires a no-fee registration. In order to obtain record details (ship's manifest, birth, marriage and deaths, census, military records etc) a charge is made. For ship records the researcher has the option to view (save/print) either an abstract or the actual ship’s record.

CHECK JGSCV WEBSITE FOR RESOURCES  
Be sure to recheck from time to time the RESOURCES link on our JGSCV website at www.jgscv.org for the latest information on genealogy related resources recommended for your research.

Celebrate Jewish Genealogy Month by attending the next meeting of JGSCV and making a further commitment to exploring your family history.

BRING A GUEST TO THE NEXT MEETING

Jewish Genealogical Society of the Conejo Valley
and Ventura County* (JGSCV) (*and surrounding areas)

Meeting on Sunday, March 18, 2007 at Temple Adat Elohim
2420 E.Hillcrest Drive, Thousand Oaks, 2:00 p.m.-4:00 p.m.

"Navigating the New York and Federal Censuses with Fewer
Tears...and More"

Joel Weintraub, Ph.D.

Census schedules are one of the most important resources for genealogists. The US census has been taken every 10 years since 1790. Many states, including New York State, have independent enumerations — (e.g.1905, 1915, and 1925) which are not online. In 1905, 1 out of 20 US residents and an estimated half of the US Jewish population lived in New York City — making these early 20th century censuses of vital interest to Jewish genealogists. Joel will discuss how the One-Step program created by Steve Morse is of critical help to genealogists in researching censuses.

Joel Weintraub is Professor Emeritus, Cal State University Fullerton. He became interested in genealogy several years ago and regularly volunteers at the National Archives. Working with Steve Morse of One-Step fame, he is responsible for database management for census conversion tables and searches on Steve Morse's website http://stevemorse.org. Dubbed the "Generic Dr. Morse," Joel's contributions to street finder aids for finding people on the census schedules have benefited all genealogists.

Meeting co-sponsored with Temple Adat Elohim

There is no charge to attend the meeting. Anyone may join JGSCV.

Future JGSCV Meeting Dates
All Meetings are held at Temple Adat Elohim
2420 E. Hillcrest Drive, Thousand Oaks

April 15, 2007: "There Once Was A Town" — award winning PBS documentary on a visit to an ancestral shtetl. In 1941 Nazis invaded the small town of Eishyshok, Poland (now Lithuania), and brutally murdered nearly all 3,500 Jewish residents. Fifty-six years after the massacre, four survivors and their families return to their childhood home led by Israeli scholar Yaffa Eliach.

May 6, 2007: "Genealogy In the Round: Share Your Successes, Failures, Artifacts and Brick Walls." Come and share a genealogical success, failure, brick wall, or genealogical artifact! This is YOUR meeting—We all learn from one another—take this opportunity to share your genealogical story—success or failure, ask questions about your brick walls, and more!

June 10, 2007: "Jewish Genealogy and DNA Testing" presented by Bennett Greenspan, president and founder FamilyTree DNA. The lecturer will explain how DNA is used for genealogy—what it can do for the modern genealogist and what it is unlikely to accomplish. Examples of DNA tests will be presented showing how a genealogist can look at the results and have a sound understanding how it is applies to your specific family for genealogy purposes. Both the Y (male) and the mitochondrial (female) chromosomes will be discussed.
